Q.90 Below is a little more information about the Department of Government Efficiency. As you read, please highlight words and phrases that stand out to you in a positive way:

President-elect Donald Trump has promised to start the Department of Government Efficiency, or DOGE, an advisory board led by Elon Musk and Vivek Ramaswamy. This advisory board is not officially part of the federal government but will provide advice to the Trump Administration on how to make government more efficient.

DOGE will serve two primary functions: (1) it will highlight ways to cut costs in the federal government, and (2) it will limit the power of unelected government bureaucrats who have immense power to create new regulations and red tape while hiding behind civil service that prevents real accountability.

First, DOGE will do a comprehensive review of these regulations by unelected bureaucrats to identify which regulations hinder government efficiency. Then they will present them to President Trump to determine which to cut. DOGE also intends to work with embedded appointees in agencies to identify the minimum number of employees required at an agency for it to perform its constitutionally permissible and statutorily mandated functions and make cuts accordingly.

DOGE will also help identify drastic cuts in the federal budget. For example, it will help end federal overspending by taking aim at the $500 billion plus in annual federal expenditures that are unauthorized by Congress or being used in ways that Congress never intended, from $535 million a year to the Corporation for Public Broadcasting and $1.5 billion for grants to international organizations to nearly $300 million to progressive groups like Planned Parenthood.

DOGE will also address government contracts because many federal contracts have gone unexamined for years. Large-scale audits conducted during a temporary suspension of payments would yield significant savings.

Musk and Ramaswamy have suggested their cuts could slash $2 trillion from the federal budget, reduce federal agencies from 400 to 100, and cut the number of federal employees by 75%. It will also cut the national debt.

| [500 Respondents] 94 (SPLIT D) (CUTS) Millions of Americans rely on critical programs like Medicaid, Medicare, and Social Security every day. Instead of cutting actual waste or Federal bureaucracy, DOGE and MAGA Republicans in Congress have proposed historic cuts to Medicaid that would cause millions to lose their health insurance, cuts to programs like SNAP that help poor Americans buy groceries and are refusing to strengthen Social Security. Analysts estimate that health insurance premiums for a family of four would jump nearly $1,000 per month under their plan. | 54 | 20 | 14 | 12 | 0 | **74** | **26** |

| 100 (SPLIT D) (UNQUALIFIED-HARMS) Donald Trump's cabinet appointees are unqualified and will put the American people at risk. Trump appointed a WWE wrestling executive who wants to end public schools as secretary of Education. He nominated talk show host Dr. Oz, who scammed seniors, to lead Medicare. And he even appointed Robert F Kennedy Jr., whose promotion of vaccine conspiracies in the country of Samoa led to 83 deaths, most of them children, to lead the Department of Health and Human Services. | 50 | 18 | 14 | 18 | 0 | **68** | **32** |

Trump put Russ Vought, the chief author of Project 2025, in charge of drafting the national budget. Vought is now working to gut checks and balances by eliminating the independence of agencies like the FBI and firing civil servants like engineers and scientists, so no one can stop him from imposing his dangerous and unpopular agenda on regular Americans. | 50 | 18 | 15 | 16 | - | **69** | **31** |

| 102 (COURT CORRUPTION) Multiple right wing Supreme Court justices have been caught accepting extravagant gifts and luxury vacations from billionaires with business before the Court which have been called "bribes" by independent observers. These justices, in turn, have ruled repeatedly in their favor. Now many of these same billionaires stand to profit enormously from DOGE's plans to eliminate federal regulations that protect clean air and water, workers' compensation, and consumer rights. The oil and gas lobby spent $75M on Trump's campaign, now he's paying them back by putting an oil executive in charge of the Energy Department who will jack up Americans' bills. The Administration will override civil servants to help their donors at Americans' expense by doing things like giving banks more control to rip off customers, and by letting companies start dangerous mining that could poison our water. This would grind the government to a halt and make it harder for FEMA to help when natural disasters strike, for the Department of Justice to hold companies accountable when they break the law, and even process Social Security checks and tax refunds. Trump's DOGE will also leave America without rules to protect us from unsafe drinking water, discrimination at work, or fraudulent business practices that rip off consumers.
